

## How to use

# the service route page

**This guide provides a quick overview of how to use the service route pages. This webpage is used if you know which route to use to get to your destination.**

The service route page features:

1. A downloadable PDF map including all related routes
2. Route description including location and details of stops
3. Customisable timetables
4. A downloadable timetable and map (PDF)
5. Links to related service routes

**864**  
Mount Barker to City  
via Hahndorf, Bridgewater, Stirling, Crafrers and Glen Osmond Road.  
Service operates 7 days

**Route variations**  
864H1

### How do I find out more?

- call Adelaide Metro InfoLine 1300 311 108
- visit Adelaide Metro InfoCentre  
corner King William and Currie Streets
- email DTPI.TravelSmartSA@sa.gov.au
- web adalaidemetro.com.au

Government of South Australia

## How it works...

1. **Downloadable PDF map** opens the route map in a new window. The route map shows related routes also. This map can be printed from the window.

2. **Location and detail of stops** lists each stop/station along the service route and the address. You can click on these stops to view each stop/station page.

3. **Customisable timetables** generates a personalised service route timetable. The timetable can be customised to display vertically or horizontally, and is print-friendly. The timetables also list all stops/stations on the route which can be hidden using the red [x].

4. **Downloadable timetable and map PDF** opens the combined timetable and route map PDF in a new window. The combined timetable and map is the same as the printed copy available at Adelaide Metro InfoCentres.

5. **Links to related routes** shows bus, train or tram services that also travel along a part of the selected route. Selecting one of these options will open the service route page you have chosen.
